FABULOUS FUTURES

As the seniors look ahead to future days most are planning to attend college. Most seniors agreed that during their final year of high school the word "college" became very familiar to them.

What "fabulous futures" do the Class of '90 have planned for themselves? Jack K-13 plans on going to M.S.U., getting rich, and then getting married. Tina Thelen is thinking about going to college and studying physical therapy or special education. Randy Thelen has a slightly different goal. He said, "After graduating from Alma College, I'm going to be a real estate tycoon and hire Donald Trump as my office building janitor." Eat, sleep, party, move away from home, and work are some of the other future plans the Class of '90 has. It looks like "fabulous futures" could indeed be coming for many of the seniors.
