Moving Into The Future

The 1991-92 senior class of Fowler High School anticipated graduation but most felt they would miss several things about high school. The majority of the class agreed that they will miss seeing their friends everyday. While others like Craig Smith said he would miss "The easy life." "Getting sleep during the day," is what Paul Thelen said he would miss the most.

The future holds many opportunities for the seniors. Most students plan to attend college, predominantly starting at L.C.C. and then transfering to a university. Others like Cami Pendell, Jenny Pung, & Jeremy Simon plan to go directly to a four year university. Mike Williams's after-high-school-plans include, "Getting a job carrying luggage for an airline."
