Tracie Schaefer and April Boak help decorate senior hall before a playoff game.

The Class of 1994 has participated in many activities throughout their four years of high school that have revealed their school spirit. One, that was memorable to many of the seniors, was running the football to the P-W football game. There were about seven cars in the caravan once they arrived at P-W's high school, and they brought with them many honks and cheers from the seniors.

In their junior year they surprisingly achieved a one-hundred percent participation rate in a Holiday Food Drive. The money collected went toward buying food and gifts for a needy family in the local area. In that same year, they won the Activities Day Championship Title, after not doing very well in their previous years.

This year, during football playoff time, the seniors stayed after school and decorated their hall with blue and white balloons and crepe paper hoping to spread spirit through the school for the game. Overall, the seniors have left their mark at Fowler High School and proved that they are proud to be Eagles.
