

Seniors Reminisce

The seniors seem to be just starting to have fun and enjoy high school a little. Though many seniors have tough schedules that require much studying, they are "slacking" a little to have some fun. When asked what advice they had for underclassmen, the common response by the seniors was "have fun; high school goes fast, and don't worry about what other people say."

Although Fowler High School has left many lasting memories, most seniors felt that playing in the state finals or going to the Silverdome was the best. For some, good memories focused upon being with their friends. A couple other people felt the whole high school experience was a positive memory. Chad Feldpausch's best memory was that of watching "Cotter" fall into the pig crap pit. For Bryan Kohagen and Yvonne Feldpausch, seeing Spals' in a dress was their most memorable moment.
